

## 8" FINNY INDUSTRIE SAFETY SCISSORS

# 753020

Blunted Safety Tips

Code: 753020

The 8" Finny Industrie Safety Scissors is made with industrial grade high quality German steel. The large ergonomically designed handle provides better control and extra cutting support. The blade is lighter, harder and with a longer edge life compare to traditional solid steel. Specially made safety blade edge and rounded tip to reduce the risk of injuries when cutting. Innovative Safecut grinding makes it safer to cut a variety of materials including papers and textiles. The teeth on the handle can also open twist bottles as well as crack walnuts. Skin-friendly soft rubber insert, permanently fixed to the handle. Designed for a perfect grip, even cutting with wet hands.
