

# 10" FINNY SAFE CUT SCISSORS

**753225**

Blunted Safety Tips

The 10" Finny SafetyCut Scissors is made with industrial grade high quality German steel. The blade is lighter, harder and with a longer edge life compare to traditional solid steel. Specially made safety blade edge and rounded tip to reduce the risk of injuries when cutting. Innovative Safecut grinding makes it safer to cut a variety of materials including papers and textiles. It features ergonomically designed and unbreakable plastic handle for fatigueless and continuous use. Skin-friendly soft rubber insert, permanently fixed to the handle. Designed for a perfect grip, even cutting with wet hands.
