Industrial

Warehouse work

Inspection

Mechanics

Every year in the Australia **thousands of people** suffer head injuries in the workplace. **Diplomat Safety Bump Cap** can reduce the risk of head injuries in the workplace by providing head protection against minor bumps and scratches.

Combining the comfort and style of a Sport Cap with the added protection of a plastic protective shell and soft pads, the Diplomat Safety Bump Cap provides a light weight, comfortable solution to head protection. Our fashionable design also means it is a form of safety wear that employees will actually want to wear.

Safety Bump Cap Benefits:

- Suitable for industrial, mechanics, warehouse and maintenance work
- Conforms to: EN812:1997A1, 2001
- High quality plastic shell provides good head protection
- Inner and outer soft pad for comfort and shock absorption
- Velcro strap at back of cap for easy adjustment and secure fitting
- Lightweight and comfortable
- One size fits all Navy Blue Colour
- Embroidery available

Disclaimer: Safety Bump Cap is not an industrial safety helmet and should not be used as a replacement as specified in EN397

REDUCE HEAD INJURIES IN THE WORK PLACE WITH SAFETY BUMP CAP
