

The Slice Manual Utility Knife allows the user to choose from one of five blade positions, customizing the blade length for each job. Designed for cutting a variety of materials from clamshell packaging to triple-walled cardboard, the Manual Utility Knife combines strength with superior safety features. It comes with a rounded tip ceramic safety blade that lasts up to 11x longer than steel and is safer to handle.

The ambidextrous glass filled nylon handle outlasts typical plastic handles for a durable and versatile safety tool that cuts your material cleanly and effortlessly.

**Features:**

- Easy no-tool blade change
- 5-position side slider button
- Safer than metal blades
- Durable glass filled nylon (GFN) handle
- Ambidextrous use
- Lanyard hole for easy transport
- Blade is chemically inert, never rusts
- Non-conductive, non-magnetic blades

**Suitable applications:**

Cardboard

Plastic film

Clamshell packaging

Bubble wrap

Tape

Bag and sacks

Paper bags

Pallet coverings

Longer blade for thicker cuts

5 Position Manual Slider

**Why a Ceramic Blade?**

- Non-conductive, non-magnetic
- Safe + Clean made from 100% Zirconium Oxide, never rusts
- Patented thicker design easier to hold and handle
- Sharp up to 11x longer than steel
- Less blade changes
- A safer cutting experience
- Rounded edges are safer to handle and use
