

The 8m tape measure - T825MI features a non-slip rubber boot which covers almost the entire case, providing excellent impact resistance. It's nylon coated, including both metric and imperial measurements on a large 25mm wide blade for superior durability, comfort and easy measuring. The T825MI also features a large standard blade lock for accurate measurement and easy control around curves or corners.

### Features:

- Rubber boot protects the tape
- 25mm blade width for strength and visibility
- Clear coat blade protection for durability
- Positive blade lock for accurate measurements
- Magnetic tip for convenient work with steel
- Belt clip included
