

AUTO-RETRACT TECHNOLOGY

REPLACEMENT BLADES

A33

A33RND

The A38 Budget safety cutter features a blade that automatically retracts back into the knife after use. This highly innovative design feature ensures maximum safety and eliminates potential blade damage.

Small, compact and versatile, this pocket friendly knife features a conveniently located lanyard key ring hole and can be used for a variety of cutting applications.

Features:

- Light and easy to use economical safety knife
- Auto retract blade reduces the risk of injuries
- Easy to change blade, no tools required
- Lanyard key-ring hole for easy attachment and storage

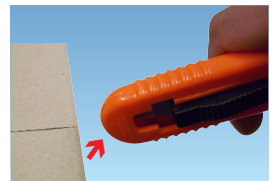

How it works:

1. Push the blade slider forward to extend blade

2. Release the blade slider while cutting

3. Blade automatically retracts after cutting

Suitable applications:

Cartons

Tape

Strapping

Bubble wrap

Stretch film

General maintenance

ALSO AVAILABLE: Budget Safety Cutter with Round Corner Blade & Left handed Budget Safety Cutter

Code: A38 RND

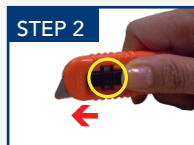

Code: A38 LH

BLADE CHANGING INSTRUCTIONS:

STEP 1 Hold knife with the black slider facing you

STEP 2 Push forward the black slider until aligned with rectangular slot

STEP 3 Lift the black slider upwards

STEP 4 Carefully take the blade out

STEP 5 Rotate the blade before reloading or replace with new blade

STEP 6 Load blade until centre hole aligns with rectangular slot

STEP 7 Push the black slider back into the rectangular slot
