Cutting Safety

45° ANGLE

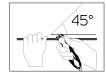

LESS FORCE = EASIER WORK = LESS RISK OF INJURY

- When cutting corrugated cardboard, tilt the knife slightly sideways to reduce necessary force
- Ensure that films and tapes are always taught before cutting them, the blade will cut your material better

Signs of Wear & Tear

- Worn, gouged or chipped guard
- Worn tip
- Worn, dull or chipped blade
- Requires more force to cut
- · Creates jagged cuts

Klever XChange

Safety Concealed Cutter Dual Sided Interchangeable Head

163mm

The KLEVER XCHANGE safety handle is reusable in many ways, the double bladed head makes the cutter economical with twice the performance. The blades are concealed and protect the user and material, with added benefit of simple blade change. Ideal for up to 2x wall corrugated, cardboard, strapping, adhesive tape, string, bagged goods, felt, textiles, and many more. Featuring an integrated tape splitter and practical eyelet for lanyard attachment. The handle can be combined with any of our replacement blade heads. "Keep the handle, replace the head!" - a cost effective and eco-friendly solution.

Features & Benefits

- Mix-and-match replacement heads based on the cutting application
- Highest Safety Level Recessed blade reduces cut injuries and damaged goods
- Double blade head for double the usage
- Suitable for left and right hand use
- Handle includes metal tape splitter
- Ergonomic 'Soft Touch' handle reduces hand fatigue and stress
- Simple quick-change, snap-in head
- Made & rigorously tested in the USA
