Cutting Safety

45° ANGLE

LESS FORCE = EASIER WORK = LESS RISK OF INJURY

- Always cut in a 45° angle for an easier and safer cutting experience
- When cutting corrugated cardboard, tilt the knife slightly sideways to reduce necessary force
- Ensure that films and tapes are always taught before cutting them, the blade will cut your material better

Signs of Wear & Tear

- Worn, gouged or chipped guard
- Worn tip
- Worn, dull or chipped blade
- Requires more force to cut
- Creates jagged cuts

MAINTAIN YOUR CUTTING SPEED & REPLACE BLADE HEAD WHEN WORN

KLEVER.

Klever XChange

Safety Concealed Cutter
Wide Interchangeable Head

The **KLEVER XCHANGE** safety handle is reusable in many ways, the single sided blade is concealed and protects the user and material, with added benefit of simple blade change. Due to the wider blade access, the **KLEVER XCHANGE** is ideally suited for thicker materials. Featuring an integrated tape splitter and practical lanyard eyelet. The handle can be combined with any of our four replacement blade heads. *"Keep the handle, replace the head!" - a cost effective and eco-friendly solution.*

Features & Benefits

- Mix-and-match replacement heads based on the cutting application
- Highest Safety Level - Recessed blade reduces cut injuries and damaged goods
- Wide head for cutting thicker boxes, film, tape and many more materials
- Suitable for left and right hand use
- Handle includes metal tape splitter
- Ergonomic 'Soft Touch' handle reduces hand fatigue and stress
- Simple quick-change, snap-in head
- Made & rigorously tested in the USA
