### Cutting Materials & Applications

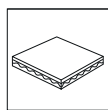

Strapping

Film

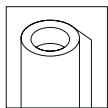

Adhesive Tape

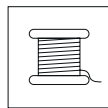

Corrugated cardboard

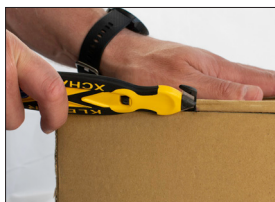

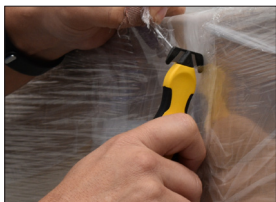

Bagged goods

Rolled goods

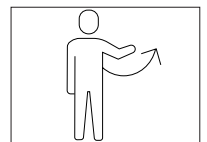

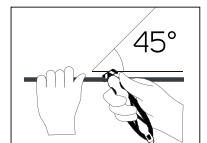

Yarn, string

### Cutting Safety

**45° ANGLE**  
**LESS FORCE = EASIER WORK = LESS RISK OF INJURY**

- Always cut in a 45° angle for an easier and safer cutting experience.
- When cutting corrugated cardboard, tilt the knife slightly sideways. This significantly reduces the necessary force.
- Ensure that films and tapes are always taught, before you cut them. The blade will cut your material better.
- Always cut away from your body

### Signs of Wear & Tear

- Worn, gouged or chipped guard
- Worn tip
- Worn, dull or chipped blade
- Requires more force to cut
- Creates jagged cuts

**MAINTAIN YOUR CUTTING SPEED & REPLACE BLADE HEAD WHEN WORN**

# Safety Concealed Cutter

## Two Sided Head

# KLEVER X-CHANGE

The KLEVER X-CHANGE safety handle is reusable in many ways, the double bladed head makes the knife particularly economical. *"Keep the handle, replace the head!"* The blades are concealed and protect the user and material, with added benefit of simple blade change. The KLEVER X-CHANGE is ideal for up to 1.5 wall corrugated, cardboard, strapping, adhesive tape, string, bagged goods, felt, textiles, and many more. Featuring an integrated tape splitter and practical eyelet for lanyard attachment. The handle can be combined with any of our replacement blade heads - a real all-rounder!

### Features & Benefits

- Highest Safety Level - Recessed blade reduces cut injuries and damaged goods
- Double blade head for double the usage
- Suitable for left and right hand use
- Innovative Metal Tape Splitter
- Ergonomic 'Soft Touch' handle reduces hand fatigue and stress
- Mix-and-match replacement heads based on the cutting application

### Replacement Blade Heads

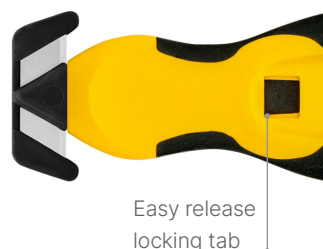

Also available:

- DD-HEADS
- DX-HD TI
- DX-HEADS KLEEN
- DX-HEAD MP KLEEN
- XHEAD TI
- X-HEADS KLEEN

### *"Keep the handle, replace the head!"*

Interchangeable, snap-in heads built for use with the entire line of KLEVER X-CHANGE safety cutters.

- 1 Simply press the easy release tab on the handle to release the mounted head
- 2 Snap-in the new blade head to automatically lock
