Cutting Safety

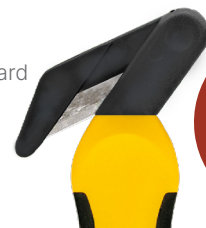

45° ANGLE
LESS FORCE = EASIER WORK = LESS RISK OF INJURY

- Always cut in a 45° angle for an easier and safer cutting experience.
- When cutting corrugated cardboard, tilt the knife slightly sideways. This significantly reduces the necessary force.
- Ensure that films and tapes are always taught, before you cut them. The blade will cut your material better.
- Always cut away from your body

Signs of Wear & Tear

- Worn, gouged or chipped guard
- Worn tip
- Worn, dull or chipped blade
- Requires more force to cut
- Creates jagged cuts

KLEVER

Safety Concealed Cutter One Sided Head

KLEVER X-CHG DX

The KLEVER X-CHG DX safety handle is reusable in many ways, the single sided blade is concealed and protects the user and material, with added benefit of simple blade change. Due to the wider blade access, the KLEVER X-CHG DX is ideally suited for up to 2-wall corrugated, cardboard, strapping, adhesive tape, string, bagged goods, felt, textiles, and many more. Featuring an integrated tape splitter and practical lanyard eyelet. The handle can be combined with any of our four replacement blade heads - a real all-rounder!

Features & Benefits

- Highest Safety Level - Recessed blade reduces cut injuries and damaged goods
- Wide one sided head
- Suitable for left and right hand use
- Innovative Metal Tape Splitter
- Ergonomic 'Soft Touch' handle reduces hand fatigue and stress
- Mix-and-match replacement heads based on the cutting application

Replacement Blade Heads

Also available:

- DD-HEADS
- DX-HD TI
- DX-HEADS KLEEN
- DX-HEAD MP KLEEN
- XHEAD TI
- X-HEADS KLEEN

"Keep the handle, replace the head!"

Interchangeable, snap-in heads built for use with the entire line of KLEVER X-CHG DX safety cutters.

- 1 Simply press the easy release tab on the handle to release the mounted head
- 2 Snap-in the new blade head to automatically lock
