

L-500GP HEAVY DUTY KNIFE

Smooth die cast aluminum body that boasts comfort. This quality construction makes blade extension or retraction extremely user friendly and safe. With the quick change blade mechanism, the user is allowed to switch out dull blades and quickly get back to their projects. Ideal for precision cutting of the most flexible to the most resistant materials (paper, cardboard, plastic, leather). Suited for use in the modern workplace, DIY or in the construction industry.
