

RESCUE WHISTLE

Code: RESCUE WHISTLE

Sound is the #1 factor in finding lost or trapped victims and preventing crime.

Based on decades of extensive search and rescue experience this whistle utilises a patented 3-chambered design to produce multiple frequency blasts of up to 120 decibels, giving victims the best chance of being HEARD and RESCUED. The US official whistle of life saving organisations such as the US National Association For Search & Rescue, US National Safe Boating Council and US Life Saving Association. Trust the whistle that first responders use for their own equipment. Made in the USA for quality and performance.

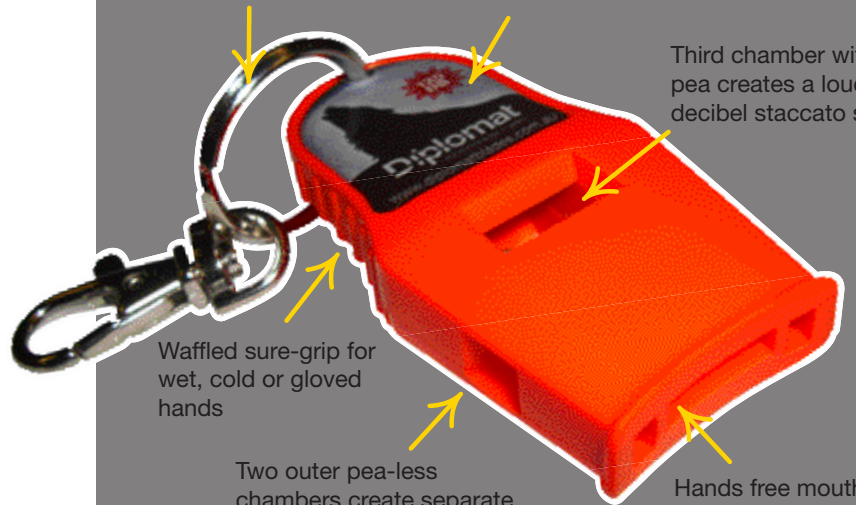

Rescue Whistle

Split ring and clip for easy fastening to gear

UV resistant custom jewel with your logo

Third chamber with pea creates a loud 120 decibel staccato sound

Waffled sure-grip for wet, cold or gloved hands

Two outer pea-less chambers create separate omni directional sounds

Hands free mouth grip. Will not freeze to lips

**IF YOU CAN BE
HEARD, YOU CAN
BE RESCUED!**
