

### **When heavy duty and comfort meet**

#### **New Rhino Heavy Duty Fixed Blade Knife**

*Diplomat Blades has launched a new heavy duty, ergonomically designed fixed blade knife, offering the user a strong and comfortable knife for a variety of applications.*

With comfort and heavy duty application being pivotal throughout the design, development and manufacturing processes, the new Rhino Fixed Blade Knife offers a number of decisive advantages over other fixed blade knives currently used in the flooring industry.

The ergonomic design and rubber grip allows for continued comfort of use from the first to the last cut of the day. Changing blades has never been easier with the 'tool free', quick release wheel. Simply release the wheel and open the knife to find the design inclusion of deep set notches, which allow for the widest range of blades including utility, hook, concave and trimmer to be used. The Rhino Fixed Blade Knife also offers a blade magnet, ensuring the blade holds position when in use, as well as storage for up to 10 blades.

*Rhino Fixed Blade Knife from Diplomat Blades – a knife you can trust.*
