General maintenance

Industries

- Warehousing
- Manufacturing

How it works

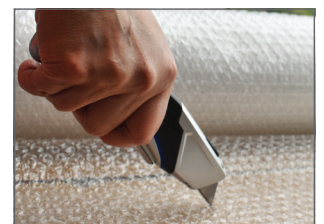

1. Squeeze action handle to extend blade

2. Begin cutting while still squeezing down the action handle

3. Blade automatically retracts after cutting

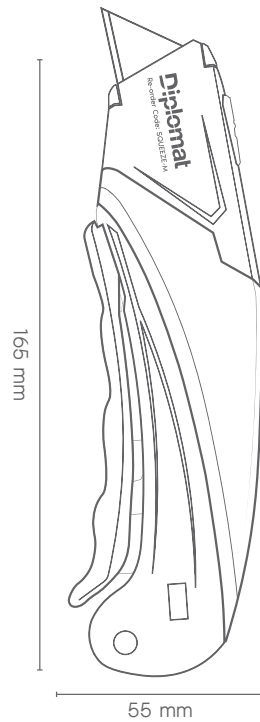

Diplomat

Squeeze Safety Knife

Heavy Duty Auto Retract Metal Construction

SQUEEZE-M

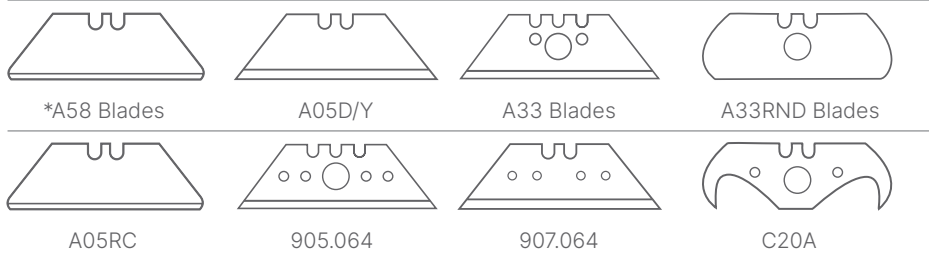

The knife features dual action, retracting back into the knife after cutting, without requiring the user to release the blade slider. This feature also prevents the blade from accidentally protruding when stored in a pocket.

Features & Benefits

- Ambidextrous heavy duty auto retract metal construction
- Ergonomically designed with unique squeeze action handle
- Blade safely automatically retracts after cutting to prevent accidents - even when the action handle is still squeezed
- Lightweight zinc body housing with comfortable rubber grip
- Blade lock to prevent action handle and blade from moving and accidentally protruding
- Easy to change blade, no tools required
- Lanyard key-ring hole for easy access

Replacement Blades

*Best suit blades for this knife

Instructions for changing blades

1. Set lock button to "unlock" position
2. Squeeze the handle
3. While squeezing press the unlock button
4. Take out used blade while keeping the handle squeezed
5. Keep handle squeezed whilst inserting new blade
6. Release handle and press lock button
