

## 10M TAPE MEASURE WITH RUBBER GRIP **T1025M**

### **T1025M** 10m Tape Measure With Rubber Grip

Introducing the all new Diplomat T1025m Tape measure, this 10 meter tape features both metric and imperial measurements on a wide 25mm tape. Further characterised by a high pressure internal spring mechanism, this tape measure offers ease of use with quick stable retraction. Built with longevity in mind, the t1025m has been specially designed for 20,000 uses unlike its competitors that offer an average life span of 3,000-5,000 uses. Encased in a durable rubber outer shell, this tape boasts excellent impact resistance from the inevitable drop. For a superior long lasting tape that won't let you down, call our friendly team now.

- Compact case with high performance spring inside
- Use times is about 20000times( normal measuring tapes only can be used 3000-5000times)
- Nylon coated finish blade with better wear-resistance,
- Final blade thickness 0.155mm.
- Rubber boot protects the tape
- 25mm blade width for strength and visibility
- Clear coat blade protection for durability and long lasting
- Positive blade lock for accurate measurements
- Magnetic tip for convenient work with steel
- Belt clip included

Code: T1025M
