

Ambidextrous, sold in eaches

Introducing the most innovative technology platform in mechanical protection. NXT Series by HexArmor NXT Series is the first product lone to utilise the TruShield™ performance, a ground-breaking armor platform that obliterates current recognise industry standards for cut, puncture, and abrasive resistance. Developed for use in food service and processing applications and other off-hand cutting applications, the NXT 10-302 protects from mechanical hazards like no other product on the market. NXT products take high dexterity gloves to another level of comfort, feel, and high performance protection that other products cannot match.

ATTRIBUTES:

Cut Resistant

TruShield™

Abrasion Resistant

PROTECTION ZONES:

FEATURES:

- This product has our innovative TruShield™ Performance Design Difference:
- SuperFabric® brand material and Coretek™ fibre provide 5x more cut resistance, and 11 x more abrasive resistance of traditional HDPE gloves
- Shielding design of fibres and SuperFabric® plating reduce ability of sharp objects and burs from penetrating and causing injury
- Coretek™ fibre keeps hands cool & comfortable while providing best-in-class dexterity and all round cut protection
- Launderable and sanitization
- Meets European food migration testing (EN 1186:2002 SI 1998 No 1376)

PRODUCT USES:

- Food service
- Cutting and processing
- De-boning applications
- Knife/blade handling
- Plastics trimming
