

STELLEATHER™ III 5033

LEATHER WORK GLOVES

The SteelLeather™ III is not your typical leather driver's glove. We have upped the performance scale for maintenance and mechanic's work. The glove introduce innovative industrial puncture protection into a product that stands up to the roughest applications while allowing users the dexterity and durability necessary to get the job done. HexArmor® products are engineered to provide users with the highest levels of protection in areas where risk is the greatest.

Experience the Science of Safety™ that has helped reduce injuries and lower PPE costs in the harshest work environments.

FEATURES:

- Made with SuperFabric® brand material for the highest cut-resistance available on the market Exceeds ISEA/CE Level 5 (in noted enhanced areas)
- Innovative industries puncture protection on enhanced areas from wires, metal, wood and glass
- Comfortable grain leather that will outlast your typical leather driver's gloves
- May be dry-cleaned for repeated use

PRODUCT USES:

- General work • Maintenance and mechanics' • Wires, metal, wood, glass • Wire and cable

ATTRIBUTES:

Cut Resistant

Puncture Resistant

Abrasion Resistant

SIZES:

7/S	8/M	9/L
10/XL	11/XXL	12/3XL

PROTECTION ZONES:

HEXARMOR SAVES A WORKER'S FINGER

STELLEATHER™ 5033 IN ACTION!

While replacing a steam valve in a manufacturing site, a maintenance worker was exposed to a nail on a wooden crate. The worker accidentally grabbed the crate where the nail was protruding. The nail punctured through the leather on the middle finger, but was stopped by the protective liner in the HexArmor SteelLeather 5033 glove. The nail ripped the leather shell, but *did not puncture* the protective layer of HexArmor material. HexArmor saved the worker from serious injury, and allowed the employee to continue their workday.
