# Safety knives can reduce the risk of work injuries by up to **60%**

## It's a small piece of equipment but it can **Save your business from troubles**

Too many businesses allow employees to use the wrong cutting tools for the job such as bare razors, or food knives, to open boxes. This is a small mistake that leads to big losses both in accidental destruction of stock and in injury claims.

**Five million Workers**

experienced injury or illness every year on the job, and more than half these injuries will be severe enough to send the worker home according to the Australian Bureau of Labor Statistics.

**30%**

of hand injuries were caused by careless box cutting. Estimates of injuries due to inappropriate knife use aren't widely available as most injuries go unreported.

**Up to \$100K**

is what the average hand injury can financially cost a company in work claims and fines. The emotional cost can never be estimated.

Companies with a Safety Knife Policy in place are less likely to see this red icon in reality. We can provide you with a personalised Safety Cutting Policy

Using safety knives can reduce the risk of accidents by up to **60%**

Using the wrong cutting tools can harm yourself and the products you are cutting.

**Diplomat Safety Knives**

**Sharp cut line**

**Stronger blades**

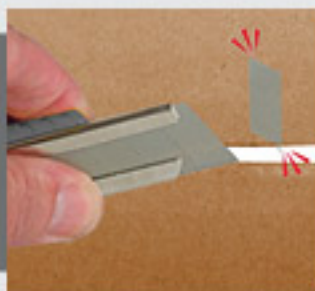

**Lasting Sharpness**

**What you don't want to happen**

**Poor cut line**

**Blades breaking easily**

**Blunt quickly**

## Diplomat Ultra safety knife - A58

### Smart Auto Retract Technology

Avoids unnecessary injuries when the knife slips accidentally or when the user forgets to take their thumb off the blade slider

The blade auto retracts when the job is done

Extend blade

Begin Cut

Blade automatically retracts after cutting finished, even when thumb is left on blade slider.

### Key Benefits

Blade will still retract even when thumb is left on the blade slider

Smart auto retract technology prevents blade accidentally protruding in your pocket

Non-slip rubber grip handle

No tools required to change blade

## OLFA Safety carton opener - SK8

Ultra Premium

Smart Auto Retract Technology

Long lasting sharpness

Easy to change blade

Highest Japanese blades

- Highest quality, made in Japan - (OLFA)
- Blade retracts even when thumb is still on the blade slider
- Comfort grip, and easy blade change

## Diplomat Dual action safety knife - A59

Smart Choice

Smart Auto Retract Technology

Lightweight, economical

Auto retracts when finished cutting

Bright colour, easy to find

- Lightweight, economical and ambidextrous
- Rubber grip
- Blade retracts even when thumb is still on the blade slider

## Safety knives & cutters

protect workers from injury and also provide strength and stability, making cutting safe and easy. Safety knives & cutters are ideal for industrial or warehouse workers.

Push blade out to begin cutting

Release thumb from blade slider while cutting.

## Superior Carbon Steel Blade

Made In Japan

- Made from the finest Japanese quality tool steel
- Best quality and most accurate snap off blade
- Sharpest cutting blade on the market
- Lasts longer going head to head against any other blades

**OLFA**  
SUPERIOR CARBON STEEL TYPE

## OLFA. Safety carton opener - SK4

Japanese Technology

- The high quality carbon tool steel blades
- No tools required to change blades
- Suitable for left or right handed users
- Made in Japan

## Tradies Favourite For Comfort And Handling

Push blade out to begin cut.

Release blade slider while cutting.

Blade automatically retracts after cutting. This prevents accidents.

Stores up to 5 Blades

## Diplomat Heavy duty safety knife - A55

#1 Design

- Construction with full bodied non-slip rubber grip
- 5 replacement blades contained in handle
- Suitable for left and right handed users

## Regulate Blade Positions For Absolute Safety

Safety lock position for when knife is not in use

Reduces risk of damaging packaged goods

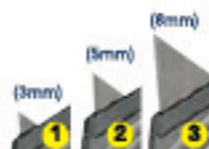

Cuts lighter materials such as thin cardboard

Cuts thick multiple cardboard and other heavy duty products

## Diplomat Multi-step safety knife - A66

Multi Task

- 3 auto retracting blade depth positions
- Spring loaded, auto retracting safety knife
- Rubber grip handle. Ambidextrous

## Diplomat Safety knife - Cobra

### Compact

Locking blade function

Extended body for safety

- Spring blade retract mechanism
- No tools required to easily change blades
- Suitable for both right and left hand users
- Compact and light weight

## Diplomat Safety knife - Piranha

### Heavy Duty

- Fast lock/quick blade change
- Heavy duty metal construction with soft rubber grip
- Suitable for both right and left hand users

## Diplomat Metal safety knife - A37

### Ergonomical

Blade automatically retracts when thumb is away from blade slider

- Ergonomically designed with rubber grip
- Spring blade retract mechanism
- Suitable for both right and left hand users

## Diplomat Metal safety knife- A27

### Top Buy

Auto retracts when thumb is away from blade slider

Screw driver is required to change blade

- Blade automatically springs back after every use
- Stops injuries caused by forgotten blades
- Replacement blades available

## Diplomat Safety knife - A33

### Top Seller

Left hand knife available

[A33\_LH]

Auto retracts when thumb is away from blade slider

- Metal body for superior strength
- Automatic spring blade retract mechanism
- Easy blade change - No tools required

## Diplomat Budget safety cutter - A53

### Great Value

Auto retracts when thumb is away from blade slider

Easy to change blade

- Metal insert for strength and stability
- Side slide safety knife with rubber grip
- Easy blade change. Longer blade exposure

## Diplomat Budget safety cutter - A38

### Economical

Round corner blade

[A38RND]

- Safety knives protect workers from injury
- Spring loaded blade which automatically retracts
- Round corner blade in knife also available (Code: A38RND)

## Diplomat Safety box cutter - A35

### Supermarket Favourite

Limited blade protrusion protects carton contents

Auto retracts when thumb is away from blade slider

- Cut up boxes easily with this box cutter
- Ideal for opening cartons without damaging contents
- Includes a spring loaded mechanism for added safety

## Diplomat Touch knife - A24 No catch

### Handy & Light

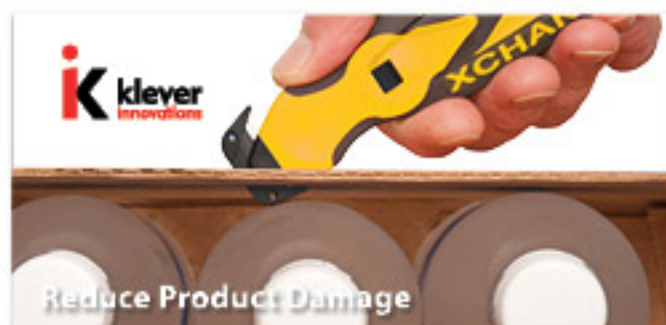

- Convenient pocket knife
- Easy to use economical safety knife
- Spring loaded blade which automatically retracts

**Klever cutters** are Safe, Versatile and Easy. They are very suitable for cutting packages, cardboards and boxes. Their recessed blade design helps prevent accidental contact, reducing the opportunity for personal injuries.

**The Safest Choice as a package opener and cardboard cutter**

## **K**klever Safety cutter - Klever X-Change

- Ergonomic soft touch rubber grip handle
- Tape slitter metal (bottom tip)
- Made in USA with high quality German blade
- Replaceable blade heads

Replacement Head:  
• Klever X-Heads

## **K**klever Safety cutter - Klever X-Change DX

- Ergonomic soft touch rubber grip handle
- Made in USA with high quality German blade
- Recessed Blade prevents contact with contents, eliminating expensive product damage
- Tape slitter metal (bottom tip)

Replacement Head:  
• Klever DX-Heads

New

## **K**klever Excel

- Multiple position handle for control and reach
- Ergonomic Handle reduces hand fatigue and stress
- Made in USA with high quality German blade
- Recessed Blade prevents contact with contents, eliminating expensive product damage

New

## **K**klever Klever Konzept

- Recessed blade prevents contact with fingers
- Slightly larger blade opening for cutting thicker cardboard
- Increased handle size for ergonomic ease of use
- Made in USA with high quality German blade
- Tape slitter plastic (bottom tip)

## **K**klever Klever Excel DX

- Soft touch handle with tape slitter
- Ideal for double walled cardboard
- Cuts cartons, strapping, bags, bubble wrap and shrink wrap
- Made in USA with high quality German blade
- Disposable

New

## **K**klever Kutter-S

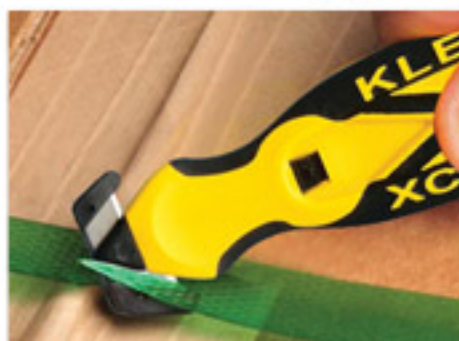

- High quality carbon stainless steel blade
- Cuts cartons, strapping, bags, bubble wrap and shrink wrap
- Dual hook design lasts twice as long as single blade cutters
- High visibility colour. Also available in metal detectable
- Made in USA

## **K**klever Kutter

- Recessed blade prevents contact with fingers
- Reduce damaged goods in boxes or packages
- Dual hook design lasts twice as long as single blade cutters
- Available in five different high visibility colours
- Made in USA

**Safety Concealed Cutters** are designed for SAFE and trouble free work with thick plastic sheeting, films, leather, box strapping and, even seat belts.

## Diplomat Heavy duty parrot knife - A31

- Multi purpose cutter with non-slip rubber grip handle
- Ideal for cutting strapping, bubble wrap, shrink wrap, tape, leather and fabric
- Tape slitter for adhesive tape

Replacement Blades:  
• A32BLADES

## Diplomat Rotary film slitter - A57

- Rotary blade slitter with non-slip rubber grip
- Ideal for cutting strapping, bubble wrap, shrink wrap, tape, leather and fabric
- Tape slitter for adhesive tape

Replacement Blades:  
• A57BLADES

## OLFA Film slitter - SK10

- Highest quality, made in Japan - (OLFA)
- Unique 4-point adjustable blade positioning
- Cuts 4 times more than a single edge fixed blade
- Perfect for shrink wrap, strapping, plastic sheeting, bubble wrap, belting, sacks, bags and tape slitting

Replacement blades:  
• SKB-10/10B

**New**

## Diplomat Metal detectable - Pelican

- Complete knife metal detectable
- Economical and disposable
- Tape slitter metal
- Ideal for cutting shrink wrap, strapping, bags, film & bubble wrap and fast food industry

**Stainless steel**

## Diplomat Metal film slitter - A45

- Heavy duty metal construction
- Non-slip rubber grip handle
- Double stainless steel blades
- Cuts multi-wall-bags

Replacement Blades:  
• A32BLADES

## Diplomat Carton cutter - 82 Cutter

- Multi purpose safety cutter
- Safety cap and storage chamber for spare blades
- Ideal for cutting shrink wrap, bubble wrap & stretch wrap

Replacement Blades:  
• A45BLADES

## Diplomat Film slitter - A25

- Multi purpose safety cutter
- Lightweight and economical film slitter
- Ideal for cutting shrink wrap, bubble wrap & stretch wrap
- High quality USA replacement blades available

Replacement Blades:  
• A25

## Diplomat Sheet cutter - A36

- Ergonomic safety push cutter
- Perfect for cutting paper and plastic sheet, fabric and leather
- Slides easily across surface for safe, controlled push-cuts
- Easy to change blades, no tools required
- High quality German replacement blades available

Replacement Blades:  
• A32BLADES

The Safer Way  
To Cut

**Safety  
Slitter**

Perfect for cutting shrink wrapped poly film, bubble wrap, box strapping, plastic and paper. Easy to use and featuring a recessed safety blade.

**Diplomat Heavy duty film slitter - A23HD**

- Hardened plastic
- Convenient finger hole
- Disposable & ambidextrous
- Also available in stainless steel (A23HDS)

# The Most Effective Personal Protection In The World

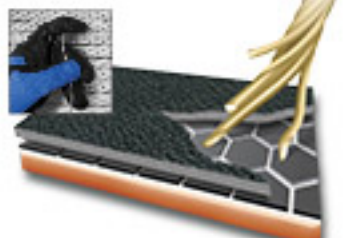

## Exclusive Advanced Technologies

### Cut Resistance

Shielding effect keeps sharp hazards (metal, blades, glass) from slipping between fibres and causing injury

### Puncture Resistance

SuperFabric® guard plates act as a shield from punctures, deflecting and blocking hazards

### Needlestick Resistance

Layered guard plates arrest, trap, and block needles and other hazards. Products tested using ASTM-F2878

### Abrasion Resistance

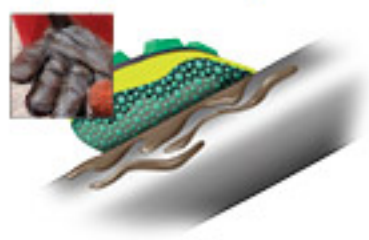

Incredibly high abrasion resistance, outlasting competitors and providing protection longer into product life

### Impact Resistance

Guard design has the ability to dampen blunt force to the hand better than any other product on the market

### Dry Grip/Fluid Grip

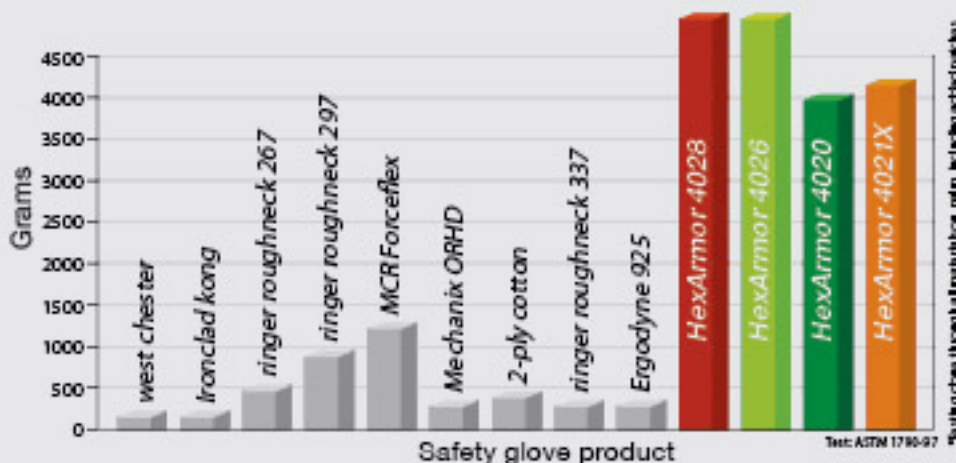

HexArmor® developed a complete line of gloves to meet the technical challenges for maintaining grip in oil and gas applications

**SuperFabric® technology**, is a finishing process that takes ordinary fabrics and transforms them into high performance products collectively known as SuperFabric® brand materials. These new protective fabrics can be engineered for optimum resistance to abrasions, lacerations, punctures, stains, and more, while remaining highly flexible. SuperFabric® brand material simultaneously incorporates a variety of protective fabric functions that no other known fabric can simulate, including industry-leading cut-puncture-and needle-resistance. Exclusively on HexArmor protection products.

## Competitive fabrics don't always cut it where protection is needed most.

### Cut Resistance Comparison

## The Perfect Union of Performance and Comfort

### General Industrial 9000 Series - Hex-9010

#### PROTECTION ZONE

SIZES: S/M/L/XL & XXL

#### Features:

- Innovative industrial puncture protection on enhanced areas from wires, metal, wood, and glass
- Cut-resistant HPPE shell with flat nitrile palm coating for great oily grip
- Launderable

#### Product Uses:

- General work
- Small parts Handling
- Wires, metal, wood, glass

### General Industrial 9000 Series - Hex-9011

#### PROTECTION ZONE

SIZES: S/M/L/XL & XXL

#### Features:

- Innovative industrial puncture protection on enhanced areas from wires, metal, wood and glass
- Comfortable cotton blend shell with wrinkle rubber palm coating for exceptional dexterity and feel
- Launderable

#### Product Uses:

- General work
- Maintenance
- Wires, metal, wood, glass
- Waste handling/recycling (metals, plastics, paper)

### General Industrial Mechanics - Hex-4018

3 Layers with SuperFabric®

#### PROTECTION ZONE

SIZES: S/M/L/XL/ XXL  
& XXXL

#### Features:

- Innovative industrial puncture protection on enhanced areas from wires, metal, wood, and glass
- Synthetic leather palm enhances grip in dry and light oil applications
- Launderable

#### Product Uses:

- General work
- Small parts Handling
- Wires, metal, wood, glass

### Heavy Duty Steel Leather™ IX - HEX-5039

#### PROTECTION ZONE

SIZES: S/M/L & XL

#### Features:

- Comfortable grain cow leather that will outlast your typical leather driver's gloves
- Exceeds ISEA/CE Level 5 (full protection coverage)
- May be dry-cleaned for repeated use

#### Product Uses:

- General work
- Razorwire/barbed wire
- Wires, metal, wood, glass

## Understanding the Protection Zone Diagram

■ Impact Protection
 ■ SuperFabric® Protection Zone

### 4 Abrasion resistance

Ranges from 0–4 and is based on the number of cycles required to abrade through a sample glove using a specially designed machine for measuring the abrasion of textiles.

### 5 Cut resistance

Ranges from 0–5 and is based on the cut resistance of a rotating circular blade with mass applied to it.

### 4 Tear resistance

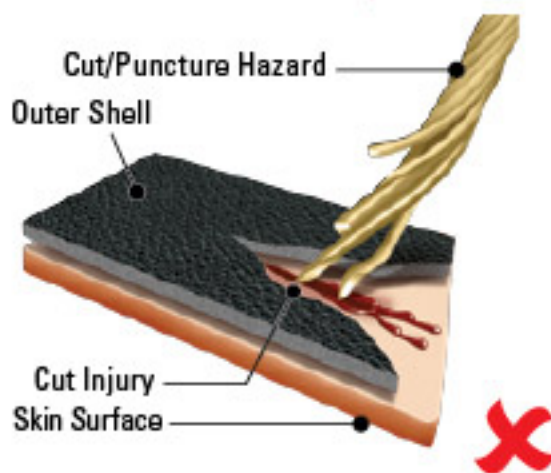

Ranges from 0–4 and is the force in Newtons needed to tear a previously cut specimen.

### 4 Puncture resistance

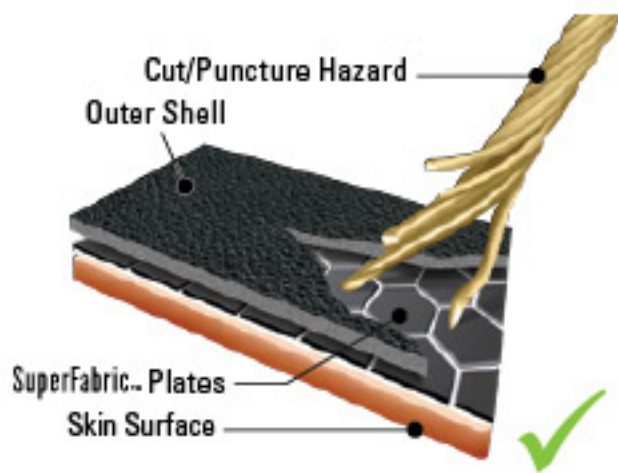

Ranges from 0–5 and is the force in Newtons needed to puncture the PPE material using a specially designed stylus.

## Maximum Cut Protection With Dexterity And Grip

### Standard Working Gloves

### HexArmor Safety Gloves

Standard Working Gloves often lack the puncture protection to stop lacerations.

### Preventing Lacerations And Puncture Wounds

Many lacerations start out as a puncture. A sharp corner, burr, baling wire, or other protruding hazard can penetrate the glove and scrape or cut skin. With synthetic leather or cotton gloves, the hazard will poke through the surface of the glove and then tear laterally to create a laceration. While a glove may say it has "cut-resistance" often lacks the puncture protection to stop lacerations.

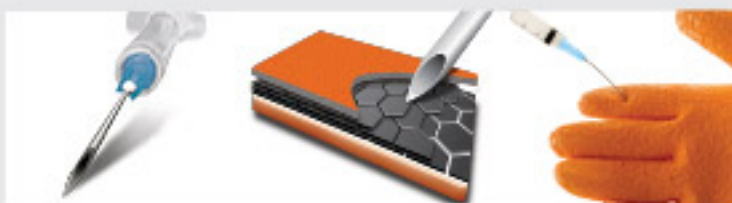

HexArmor with SuperFabric® offers maximum cut protection that prevents lacerations

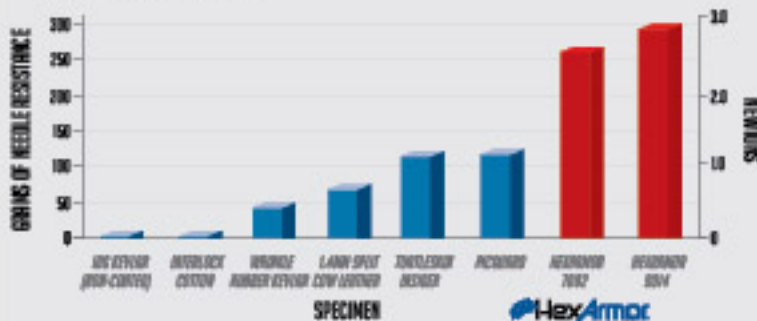

## Needlestick Resistance Safety Gloves

Needles are used to draw blood or deliver medicines. A dirty needle may contain infected blood causing disease or infection. To stop them you need to stop the cutting action by putting something hardened in front of them, such as the protective guard plates found in SuperFabric® brand materials.

SuperFabric® guard plates block and deflect needle hazards, or trap and arrest them in the small gaps between guard plates. Multiple aligned layers of fabric provide extra resistance against needle hazards.

Our needle-resistant gloves and arm guards aren't just lab tested, we test them with actual 0.25 gauge needles to give you maximum protection and peace of mind.

## Needlestick Sharpmaster ii™ - Hex-9014

### PROTECTION ZONE

SIZES: S/M/L & XL

### Features:

- Tested using actual 0.25 gauge needles
- Highest level of cut-resistance, exceeds CE level 5
- Single-glove needle solution with incredible dexterity and comfort.

### Product Uses:

- Waste / recycle sorting
- Hospital waste handling
- Laundry and line
- Municipality work
- Wastewater / sewage treatment

## Needlestick NSR - Hex-4041

### PROTECTION ZONE

SIZES: S/M/L & XL

### Features:

- Tested using actual 0.25 gauge needles
- Highest needlestick-resistance
- Specialized silicon gripping surface on palm
- Launderable

### Product Uses:

- Waste / recycle sorting
- Hospital waste handling
- Laundry and line
- Municipality work
- Wastewater / sewage treatment

## Needlestick Hercules™ NSR - Hex-3041

### PROTECTION ZONE

SIZES: S/M/L & XL

### Features:

- Tested using actual 0.25 gauge needles
- Highest needlestick-resistance
- Specialised silicon gripping surface on palm.
- Full hand protection
- Launderable

### Product Uses:

- Waste / recycle sorting
- Hospital waste handling
- Laundry and line
- Municipality work
- Wastewater / sewage treatment

3 Layers with SuperFabric®

## The Industry Leader In Cut, Puncture And Impact Protection

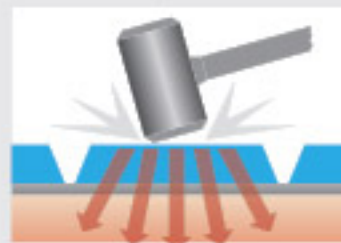

HexArmor prevents cut injury with SuperFabric™

The grip you need to work efficiently, effectively and safely

HexArmor IR-X Impact Guards are 42% taller than competitive impact guards, creating an even greater barrier between your hand and impact injuries.

### Standard Competitive Impact Protection

### HexArmor Impact Protection

### GGT5 Mud - Hex-4021X

### PROTECTION ZONE

SIZES: S/M/L/XL/XXL & XXXL

### Features:

- Mud Grip synthetic leather palm with PVC dots works well in light/medium oil based muds.
- Enhanced impact protection with increased coverage.
- Abrasion resistant PVC dots for maximum grip in muddy situations

### Product Uses:

- Light to medium oil-based mud situations
- Oil & gas operations
- Diesel Fuel
- Honey oil
- Hydraulic fluid
- Friction reducers • Extrication

### GGT5 Gator Grip - Hex-4020X

### PROTECTION ZONE

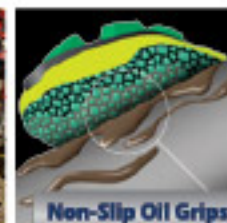

SIZES: S/M/L/XL & XXL

### Features:

- Grip prevents formation of oil film and displaces oil allowing maximum contact with tools & other surfaces in saturated situations.
- Impact protection on back of hand and fingers reduces risk of contusion and crush.

### Product Uses:

- Light to medium oil-based mud situations
- Oil-Gas operations
- Diesel fuel
- Honey oil
- Hydraulic fluid
- Friction reducers
- Extrication

### GGT5 Mud - Hex-4021X

### PROTECTION ZONE

SIZES: S/M/L/XL/XXL & XXXL

### Features:

- Mud Grip synthetic leather palm with PVC dots works well in light/medium oil based muds.
- Enhanced impact protection with increased coverage.
- Abrasion resistant PVC dots for maximum grip in muddy situations

### Product Uses:

- Light to medium oil-based mud situations
- Oil & gas operations
- Diesel Fuel
- Honey oil
- Hydraulic fluid
- Friction reducers • Extrication

### Rig Lizard® - Hex-2021

### PROTECTION ZONE

SIZES: S/M/L/XL/XXL & XXXL

### Features:

- TP-X™ palm reinforcements strengthen areas of the palm that most frequently wear out
- ISEA Level 3 cut and puncture protection
- Additional IR-X™ guard between thumb and index finger secures common pinch and catch points

### Product Uses:

- Light to medium oil-based mud situations
- Oil & gas operations
- Diesel Fuel
- Honey oil
- Hydraulic fluid
- Friction reducers • Extrication

## Chrome Series Cut 5 360° - Hex-4023

### Features:

- Synthetic leather palm enhances grip in dry and light oil applications while providing dexterity to utilize tools and equipment
- 360° Level 5 cut resistance
- Back of hand impact protection
- Launderable

**SIZES: S/M/L & XL**

### PROTECTION ZONE

- SuperFabric® Protection Zone
- 2 Layers SuperFabric® protection

Exceeds Level 5 CE  
Cut Resistance 4521

### Product Uses:

- Oil-Gas operations
- Maintenance and mechanics
- Machine repair
- Extrication

## Chrome Series Impact Hi-Vis - Hex-4026

### Features:

- Oil-resistant synthetic leather palm enhances grip in dry and light oil applications
- Abrasion-resistant PVC dots for maximum grip in oily situations
- Back of hand impact protection
- Launderable

**SIZES: S/M/L & XL**

### PROTECTION ZONE

- SuperFabric® Protection Zone
- Impact Protection

Exceeds Level 5 CE  
Cut Resistance 4521

### Product Uses:

- Oil-Gas operations
- Maintenance and mechanics
- Machine repair
- Extrication

## Food Handling NXT- Hex-10302

### Features:

- Provides 5x more cut resistance, and 11 x more abrasive resistance of traditional HDPE gloves
- Reduces ability of sharp objects and burrs from penetrating and causing injury
- Providing best-in-class dexterity and all round cut protection
- Launderable

**SIZES: S/M/L & XL**

### PROTECTION ZONE

- SuperFabric® Protection Zone

ISEA CUT: 5  
ISEA CUT: 5  
454X

### Product Uses:

- Food service
- Cutting and processing
- De-boning applications
- Knife/blade handling

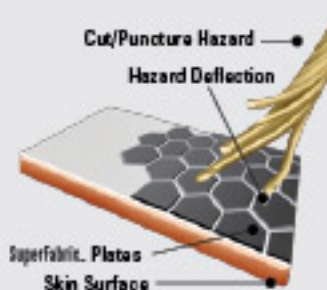

HexArmor body protection exceeds the industry's highest test standards - ISEA Level 5, giving you the protection you need most, where you need it.

No other competitive product comes close  
Preventing tissue damage and wounds  
Safe, Lightweight and Durable

### Standard Knit Protection

### HexArmor Body Protection

## Arm Protection 9" Arm Guard AG100095

Also Available

19" Arm Guard  
HEX-AS0195  
Sizes: S-XXL

### Features:

- Innovative industrial puncture protection from wires, metal, wood, and glass over entire forearm
- Lasts 13 times longer than competitive sleeves
- Won't fall down like knit sleeves, lightweight and cooler than knit or leather
- Launderable

**SIZES: S/M/L/XL & XXL**

### PROTECTION ZONE

- SuperFabric® Protection Zone

Exceeds Level 5 CE  
Cut Resistance 4532

### Product Uses:

- General work
- Glass/Metal/Wood Handling
- Assembly
- Food Packing/Processing

## Body Protection Protective Apron 36" Hex-AP361

Also Available

Protective Apron  
20" AP102229  
One size fits all

### Features:

- Innovative industrial puncture protection from wires, metal, wood, and glass from wrist to bicep
- Heavy Duty (double layer belly patch)
- Lightweight compared to alternatives
- Launderable

**One size fits all**

### PROTECTION ZONE

- SuperFabric® Protection Zone
- 2 Layers SuperFabric® Protection

Exceeds Level 5 CE  
Cut Resistance 4532

### Product Uses:

- Veneer Pulling
- Food Processing
- Filing/Grinding
- Wires, metal, wood, glass

“Diplomat has all the safe cutting solutions and protective gloves to keep people safe and productive at work, we aim to be a business partner not just a supplier”

Paul Klein  
Diplomat director

### Why customers choose Diplomat blades?

- Innovative products with superior performance
- Customised safety solutions for every application
- Diplomat cares and promote safety in work environments
- Quick and reliable delivery Australian wide
- 40 years' experience and proudly Australian owned

For more information,
